

## **The HPSEBL through its Chief Engineer (Comm.)**

**Suo-Moto Pet. No. 1 of 2023**

**29.12.2023**

Present: Sh. Dhananjay Sharma, Ld. Counsel for Respondent  
along with Sh. Anup Ram, CE (Commercial)

### **DAILY ORDER**

Sh. Anup Ram, chief Engineer (Commercial) states that the five numbers of services have already been rolled out, whereas orders have been floated for the Smart Meters, which will take at least two and half months and only thereafter the six services i.e. auto compensation mechanism for the new connections would be made go live and prays for time.

Already several opportunities have been provided to the Respondents but complete services have not been rolled out so far and respondent has miserably failed to provide the services for which, the consumers can not be made to suffer.

However, since partial compliance stands made and installation of meters is going to take approximately 3 months, we deem it proper to dispose of the Petition being partially complied. However, the HPSEBL is directed to make compliance of all parameters well before 15.03.2024 and file the compliance.

The file after doing needful be consigned to records.
